LUCKNOW SYMPOSIUM

James Canright, a "near-participant" in the Silver Jubilee Symposium of the Birbal Sahni Institute of Paleobotany reports that he was able to travel as far as Bangkok on his way to Lucknow, India. All Indian airports were closed at the outbreak of the Indian-Pakistani conflict on December 4, 1971. However, the Symposium was held as scheduled, using the speakers who arrived prior to that date. The Symposium volume will be published, and will include all papers originally scheduled on the program.
