## LATIN AMERICAN ASSOCIATION

Preliminary discussions for the organization of a Latinoamerican Association of Paleobotany and Palynology were held in Mexico City, December, 1972, during the First Latinoamerican Congress of Botany.. The stated objectives of this new Association will be:

- 1) To group all specialists doing research in paleobotany and palynology in Latin American countries.
- 2) To promote the exchange of information related to research and teaching of these fields in Latin America by means of a Newsletter and a publication including original research papers.
- 3) To promote sections in these fields within the framework of Latin American Congresses of Botany, Geology, and/or Paleontology, or to hold meetings exclusively on paleobotany and palynology.

As a result, Latin American researchers would have more opportunities through their Association to exchange information and materials with members of similar international organizations.

Members of the Organizing Committee are:

Jaime Rueda-Gaxiola (Mexico)  
Gustavo Huertas-Gonzalez (Colombia)  
Lelia Duarte da Silva Santos (Brazil)  
Sergio Archangelsky (Argentina)

For further information, contact:
